

So you've decided to update your bathroom, but where do you start?

It can all be a little daunting with so many decisions to make and so many beautiful things to choose from!

To make things a little easier we've put together a simple checklist which will help you make sure you've not forgotten about anything you'll want in your new bathroom.

You can use our checklist to clarify the elements of your new bathroom, to sketch the rooms layout and to choose the individual items you would like to include.

So let's get started!

THE ROOM

Tick all of the boxes to identify what you'd like in your new bathroom.

Other fittings: list anything else you'd like to include below.

CHOOSING YOUR BATHROOM FITTINGS

Now that you've decided what fittings you'd like to include in your bathroom it's time to choose the fittings themselves.

You can find our range of bathroom fittings and tiles on our website, just follow the links below.

["The Collection"](#) our bathroom range.

["The Collection – Tiles"](#) our tiles range.

["K-VIT"](#) bathroom range.

On the following page you'll find a simple table where you can list all of the items you want in your new bathroom.

Be sure to include the item's name, reference number, the brochure and page number, we've included a sample line to show you.

And if you want to use another supplier you can still list them here too.

Brochure Reference Key

Collections Bathroom (NU) - CB

Collections Tiles (NU) - CT

K-Vit - KV

In case we haven't explained things clearly we've put a sample line in for you!

If you need more space than we've provided you can simply print another page of two off!

YOUR BATHROOM LAYOUT

It's a good idea to sketch the layout of how you would like your new bathroom to be.

It will help us in designing your bathroom and in maximising the space.
